SUMMARY

Web content and CMS professional with 14+ years of experience helping large organizations publish smarter, move faster, and maintain quality at scale. Proven track record across Intuit, Bank of the West, and Wells Fargo managing high-traffic websites, leading complex CMS migrations, and building systems and documentation that keep content operations running long after a project wraps. Technical foundation spans WordPress, Sitecore, Tridion, EMC Documentum, and Joomla, paired with HTML/CSS, QA/UAT, A/B testing, and digital asset management.

EXPERIENCE

Marketing Manager, Web Operations · Intuit (Contract)

Oct 2023 – Apr 2025

Managed and published web content on turbotax.intuit.com using WordPress, working cross-functionally with Marketing, DevOps, Design, and Business Development to deliver accurate, high-quality content at scale.

- Led migration from classic WordPress to Gutenberg editor — documenting bugs, identifying improvements, and supporting the team through the full transition.
- Partnered with the design team to develop and deploy a universal design system; performed QA on new components, managed code libraries, and ensured adherence to design standards.
- Conducted A/B and multivariate testing to optimize user experience and site performance.
- Built a 50+ page publisher's wiki covering best practices, authoring guides, and CMS documentation.
- Performed regular QA, UAT, functionality, and performance testing to ensure CMS reliability and accuracy.

Assistant Vice President, Web Content Analyst · Bank of the West

Feb 2015 – Sep 2023 · 8 years 8 months

Primary web content authority for [BankoftheWest.com](https://www.bankofthewest.com), managing publishing, digital assets, and site quality across multiple CMS platforms while partnering with design, marketing, and technology teams.

- Led two full site redesigns and CMS upgrades — rebuilding a 400-page site from the ground up twice, including full migration, QA, and post-launch optimization each time.
- Managed end-to-end migrations: SEO analysis, content audits, and URL mapping pre-migration; led a cross-functional team of six during migration; directed cleanup and optimization post-migration.
- Enhanced templated components with custom HTML/CSS; established information architecture and implemented functional modules.
- Developed training programs and authored instructional materials including component style guides for internal teams.
- Drove improvements aligned with Brand Guidelines, SEO best practices, A/B testing insights, and analytics.

Web Publisher, Wholesale UX · Wells Fargo (Contract) · *Rehired via same agency after mandatory 6-month break*

Aug 2013 – Dec 2014

- Developed and maintained web pages for the Wholesale CEO Communication Center portal using HTML.
- Supported Tridion CMS post-migration cleanup impacting ~53,000 files across 70 content types and 55 applications.
- Authored user guides and training manuals; acted as liaison between technical and production teams.

Web Publisher · Wells Fargo (Contract)

Jun 2011 – Dec 2012

- Managed internal application content and documentation using HTML; conducted QA reviews for all publishing deliverables.
- Led content inventory for CMS migration; trained and mentored new team members on tools and processes.
